• Johan van Tuijl, Sales Manager

AgrowSer BV - VDH Poly Greenhouses BV has been
around for almost 40 years and is well known because of
its **worldwide supply and construction of foil greenhouses.**

The constructions are composed of high-quality materials,
resulting in a long service life.

When designing each project, we take into account
installations that may need to be incorporated in the
greenhouse, such as screen installations and insect screen
systems. In this way, third-party installations can be
efficiently integrated into the structure of our greenhouses.

VDH Poly Greenhouses are based on Venlo steel
constructions with roofing systems, which are developed
and produced in-house.

AgrowSer (Multi)tunnel are based on flexible sizes and
dimensions, fitting to the needs of the crops.

Our goal is to realize high quality Poly Greenhouse
projects, according to the wishes and needs of our clients,
fitting into budgets and building schedules.

Since 2022, we announced our collaboration with Ebtech
from Yorkshire. Ebtech will represent AgrowSer BV / VDH
Poly Greenhouses BV in the UK.

Together, we are able to carry out new-build projects in
the UK on a turn-key basis from start to finish. Feel free to
visit us in Booth C1.

Atlas Flowers is well known for its wholesale supply of **dried flowers** and **preserved foliage**, top-quality **faux stems** and now, a growing range of **ready-to-retail solutions**. This year, we are showcasing our new products, which are perfect additions to your current lines, point-of-sale displays, and as stand-alone ranges.

Our new collection of **vases** and **containers** come in a variety of materials including glass, ceramic, terracotta, cement, and iron. There is a wide range of styles, finishes, and size options suitable for domestic, office, and commercial spaces.

The **retail-ready bouquets** we offer are frequently updated to reflect the seasons, and the bespoke we offer service ensures you get something no one else is selling, and exactly as you want it!

For gifting, we have a range of products that will delight your customers, and fly off the shelves, including **letterbox flowers**, and **wish bottles**.

Visit us at stand E117 to see what we have on offer!

Heathfield Nurseries, Parklands, Waltham Abbey,
EN9 2AG, UK
T 0870 060 0420 E andrewd@classiflora.com
W www.classiflora.com

Classiflora Imports 'CFI' is one of the UKs leading specialists in the import and supply of hardy exterior European specimen plants, trees, shrubs and topiary. The extensive range of plants is individually selected from ten different European countries with a large proportion of the total offering sourced from the "Green Capital of Europe", Pistoia.

Our product range varies from 3 to 1500 litres of containerised stock and within season, rootball. 'Big plants for big projects' or traditional stock is available in large volumes with guaranteed uniformity. All our traditional / regular stock, special promotional lines and our 'looking good selection' can be viewed personally at our site or via our up to date stock lists when you have registered to our client area.

The core range is subdivided into the following categories: **Evergreen Trees and Shrubs - Deciduous Trees and Shrubs - Climbers - Palms - Conifers - Citrus - Topiary - Specialist Mediterranean Lines**

Retail customers benefit from 'Shelfies'. This pick and mix' shelf and trolley deals allow them to build their own bespoke selections from a greater variety of lines to suit their particular customer requirements, thus reducing the risk of unsold stock and maximising their return on investment. We work in partnership with all our clients to ensure we continue to offer unrivalled quality, service, price and convenience.

- Matthew Skinner, Sales Manager UK

Founded in the 1950s, Danziger is one of the world's most innovative floriculture companies, creating extraordinary flower varieties that help customers all along the supply chain achieve extraordinary success.

Powered by one of the flower industry's largest R&D departments, and with cutting-edge propagation facilities and nurseries in Israel, Guatemala, Kenya, and Colombia, Danziger supplies elite quality vegetative material to around 1000 customers in over 60 countries.

Danziger manages over hundreds of varieties under breeders' rights. Through collaborative partnerships with growers, Danziger continuously explores new ways to capture the market's imagination, while staying true to its roots as a family business.

• Phil Griffiths, Sales Manager (UK & Ireland)

We are excited to be back at Four Oaks 2022 and celebrate the 50th anniversary of the show!

Desch Plantpak are one of Europe's leading **manufacturers of pots, trays and containers** for horticulture and despite the difficult times of the last 2 yrs, we continue our focus on the production of pots, trays and planters using recycled materials – which in themselves are fully recyclable.

We look forward to meeting new and existing customers and presenting our sustainable solutions for the UK horticultural market and discussing the important need to plan ahead and secure supply in this turbulent climate. Come and see us in house C!

Excelerate Ltd are a leading UK supplier of specialist solid and breathable wrapping solutions for a wide variety of industries. Our primary focus is to significantly reduce operational costs and plastic use for every load wrapped, offering highly efficient films that still maintain superior strength, durability and tension. In this way, we help to prevent unnecessary product loss through spoilage and shipping damages, generating higher ROI for each consignment successfully received.

We have also introduced a range of films with 30% post-consumer recycled material, which are also completely recyclable at the end of their useful life. Not only are these products exempt from the UK plastic packaging tax, they contribute greatly to a fully circular economy, boosting our customer's own environmental credentials.

W www.kernock.co.uk • Bruce Harnett

For the 2022-23 season we have nearly 50 hand-picked new introductions, all of which have shone brightly in our extensive trial program! As always, there are too many to mention, but we highlight just a few here:

Summer Sparklers - We have some stunning new Dahlia from the Dreamy range - 'Dance' and 'Hot Chocolate' have incredible dark foliage and wonderful flower through summer. Sanvitalia 'Goldbini' has got to be a highlight. Impressively sized golden-orange flowers in their hundreds sit above tight green foliage. This variety was top of the class in our Europe-wide testing.

House Plants and succulents continue to be a trend that is growing year on year, so we have responded with more introductions that we hope will pique your interest. Two new Aloe varieties impressed us, with 'Christmas Carol' exhibiting green, bronze and dark red textured leaves.

We of course have plenty of **Perfect Perennials** to be enjoying. Only the best Salvia make the grade and we've picked out a couple cracking varieties that we had to mention. Salvia 'Wine & Roses' is a relatively compact plant not lacking in flower power. Stems full of a unique, two-tone coloured flower, orange to flushed magenta that really shines in a pot or patio container.

We look forward to seeing you at the show and will be happy to show you our full range of introductions for next season - far more than we can mention here! We're looking forward to another great season for Kernock Park Plants and our customers!

Modiform offers solutions in the field of growing,
transport, and packaging systems for the horticultural
sector based on recycled raw materials. We produce
thermoformed pots from 7cm – 19cm (3ltrs) and **injection
moulded pots** from 6cm-27cm (10ltrs). Transport and
propagation trays, and packs. Modiform has the largest
choice of bedding packs available. The **transparent
green PET bedding packs**, which are made from recycled
drinks bottles can be recycled with standard kerbside
collection systems. Our **ecoExpert** range of products made
from waste cardboard are recycled, recyclable (Cyclos
certified), biodegradable and compostable. This year,
Modiform introduced **online packaging** for sustainable
and safe shipping of potted plants. A 100% recyclable
and plastic-free solution. We have lots of new products,
some specifically designed for the UK. Come along to take
a look and to discuss the recyclability of your packaging.
Let our knowledgeable team advise you.

We look forward to seeing you. Stand D29, 30, 63, 64.

Plant Market B.V. is the **European platform for the purchase and sale of garden plants and tree nursery products**. Our company is located in Zundert and Boskoop, two of the most important production regions for trees and garden plants in Northern Europe. By using the most modern techniques and investing in digitization, e-commerce and sustainability, we remain innovative.

With our online platform, we provide insight into the market and we offer buyers all over Europe the opportunity to order both large and small batches 24/7. We take care of the entire logistical and financial settlements between our partners. As a result, Plant Market B.V. serves as a valuable link between the grower and the end customer.

More than 400 growers are currently affiliated as partners with a current stock of over 40,000 different articles from which our 12,000 users can choose.

Sign up for our online platform

• Barbara Fontani

TUSCANYGROWERS is a group made up of two nurseries, Biagini Azienda Agricola San Giovanni and Masetti Sabino Vivai, supported by small growers. We are specialized in the production of outdoor ornamental plants. Our goal is to offer a wide range of plants: climbers, roses, aromatics, plants for hedges, topiary (bonsai, multitrunks, pleached trees & shrubs, pompon, spirals, etc.), groundcovers, conifers, bamboo, exotic plants, palms. We also got the MPS certification reflecting the constant search of sustainable production while respecting the environment. From a logistic point of view, we are perfectly organized providing the service of "loading in one place", collecting the plants chosen by each grower in one loading place. Over time we have consolidated relationships with transport companies and we are able to provide assistance (including all documents necessary for export outside EU) for both full and partial loads. **We will be pleased to welcome you in our nurseries!**

Koning Albert II-laan 35 bus 50, Brussels, 1030, Belgium
T +32 2 486 64 94 **E** export@vlam.be
W www.flandersplants.com

Belgian horticulture, with Flanders as its main production region (approximately 90%), is known for its variety, tradition, professional skill, customised solutions and quality. The showpieces remain the **azalea, tree nursery products and chrysanthemums in pots**. Flanders is a world player in the field of breeding and propagation of **young plants** with technical know-how, especially in regard to the in-vitro activities. The market position of Flanders' **indoor plants** is also enviable.

Flemish exporters not only provide high-quality ornamental plants, but also guarantee personal service, excellent professional skill and enormous flexibility, also in the wholesale trade. The companies are often still family-run, where the second or third generation is currently taking its place. Family businesses have a typical company culture with a high degree of involvement, that ensures the best quality and service.

Meet our companies: **Boweco, Deforche Export, Denis-Plants, FlorAmor, Michaël Rahoens tree nursery and Van Hulle B&C**.

We look forward to seeing you.
 Stand E31-34, 55-58, 66a-68, 89-91a, OP4.
